

## Prizes to be Awarded for The Annual Fish Derby

There was only a fair attendance at the regular meeting of the Didsbury Fish and Game Association held in the Lions hall on Friday, May 13, and the main part of the meeting was devoted to reports from delegates to the annual convention in Calgary this spring.

Irvin Klein reported on big game and briefly stated that the game branch at Edmonton was looking towards the Association for guidance in drafting legislation and fixing bag limits.

Ken McCoy, the predator delegate, said that the convention was one of the most successful ever held. The bounty question was thoroughly discussed and the three provinces, Saskatchewan, Alberta and British Columbia, appeared to be definitely against the bounty payments on wolves, coyotes and cougars, but favored hired hunters.

George McDonald reported on migratory bird regulations discussed at the convention and the opinion seemed to be against having four zones in Alberta with different opening season dates. A recommendation was made to revert to the old system of north and south zones only.

E.B. Grange, chairman of the

local predator control campaign, reported that so far the campaign was lagging but he expected that it would pick up during the latter part of May. He asked for a definite sum to be voted for special prizes and the meeting passed a motion to allow \$25 for this cause.

The fish derby question was up for discussion and it was decided to continue the derby again this year with suitable prizes being awarded for the largest loch, rainbow, and pike caught by any member of the Didsbury Association and weighed in at either the Kirby Meat Market or at the Crystal Dairy. There will be no entry fee, but the fish must be caught during the current fishing season ending September 30, and may be taken anywhere in the province.

A complaint was registered with the association that residents were shooting pike in the Little Red with high powered rifles, and also that someone had a net in the Fallen Timber river, and the association will recommend that closer patrol be instituted by wardens on these streams.

At the conclusion of the meeting Mr. Herb Stiles showed three reels of motion pictures which were prepared by the members.

## Blossom Time is Earlier This Year

Blossom time is here again and in Didsbury the numerous apple trees are now a mass of blossoms and present a very pretty sight. The lilac trees are also coming into full bloom, as well as many perennial flowers, and some of the local flower gardens are well worth seeing at this time of year, and as the perennials blossom in their turn, will continue to delight the fancy of their owners and visitors.

In the country the Saskatoon, choke cherry, wild gooseberry and currant bushes are also in full bloom and indicate a heavy yield this season. The trees are all out in leaf and visitors to the fair country west of Didsbury have been delighted with the foothill country at this time of year.

## GIRLS' SOFTBALL TEAM PLAYS INNISFAIL ON WEDNESDAY

The Didsbury Girls' Softball team has been organized for the season and the team will be known as "The Didsbury Flyers."

The first home game of the season will be played against the Innisfail Lions girls' softball team at the Didsbury school diamond on Wednesday, May 18, at 6:30 p.m. Harry McCullough is the coach of the girls' team and he asks for the support of Didsbury ball fans in bringing good softball to Didsbury this year.

## SUCH WAS LIFE

Among the early settlers was Mr. Frank who had homesteaded by proxy. Anxious to see his land, he took a shovel and walked four miles west. After finding the stake which indicated his possession he dug in several places to determine the nature of the soil. He then planted the shovel in the ground and hung his black overcoat over it. He was now ready to further survey his half mile square piece of land. He did not go far when he jumped a jack rabbit; a little further on he spied a badger digging after gophers; and a little later he saw a coyote. What will I see next, he thought, maybe a bear?

The day was a bit cloudy and his sight none too good and he decided he had seen enough for that time and he was ready to hit for home. He had by this time lost all sense of direction and as usual went the wrong way. He thought of his coat and shovel, but where were they? He could not see them and hunted here and there. Maybe the wind blew them over. Just then the sun appeared and brightened his vision and in the distance saw what looked like a bear. He shouted, he jumped and swung his arm, and waved his cap but the bear did not seem to change his position; he was erect and moving his fore arms. Crowding cautiously toward the bear he finally noticed it was his overcoat, the sleeves blowing in the wind.

PIONEER CITIZEN

## American Boy-Mayor Visits Unesco

Touring Europe to study the problems of displaced children, John Finerty, 16-year-old Mayor of the Children's Village at Dobbs Ferry, New York, is shown here in Paris with Dr. Jaime Torres Bodet, former Foreign Minister of Mexico and now Director of the United Nations Educational, Scientific and Cultural Organization (Unesco). Unesco itself as part of its educational reconstruction job, has taken steps to promote closer contact between the various towns and villages set up for handicapped children throughout the world.

## TUESDAY, MAY 24, A HOLIDAY

Tuesday, May 24, is a Public holiday and all places of business in Didsbury will be closed. As this holiday falls on the publication day of The Pioneer, we ask that all advertisers and correspondents have their copy in by Saturday afternoon for regular publication in that issue.

## West Didsbury Farms to Get Electric Power

The sign up for power in the territory west of Didsbury has been most gratifying and with the completion of 108 contracts during the last two weeks, and delivered in Calgary to the Power Company, west Didsbury farms can reasonably expect to be hooked up by the end of 1949.

Assurance has been given that a survey of the project will be made by mid summer, after which construction can get under way.

The Association has been informed by the Calgary Power Company that any farmers who want to be served by power must get their contracts in before the survey starts. Extra contract forms can be obtained from any of the directors, who urge farmers to complete these contracts immediately and obtain the most favorable rate offered.

## WINS PRIZE FOR TALL STORY

Mrs. George Innes was notified last week that she had won a prize for a "tall" story that she sent in to the Rock Oil Company program and the story was told to the listening audience. The editor couldn't persuade Mrs. Innes to repeat the story, but others heard it over station CICA, Edmonton.

The hot weather of the past few weeks came to a sudden end and Monday afternoon when a north wind brought rain and snow and falling temperatures. On Tuesday morning there was still a trace of snow on the ground and the temperature was down to 32 degrees above zero. It is hoped that the slight frost will not damage flowers and early garden plants.

## EXPERTS IN MAKE-BELIEVE

These three bright-eyed youngsters are listening intently to what CIBC Producer Peter McDonald has to say about a script for the Vancouver children's drama series

## Africa Missionaries Return to Didsbury

Rev. and Mrs. O.L. Traub arrived in Didsbury from a three-year tour of the mission field in Africa on Thursday, May 12, and expect to be home on a year's leave of absence. On route home they stopped at Oshawa, Ont., and took delivery of a new Chevrolet car for Mr. Traub's brother, Ernest, of Trochu, and they drove home by way of Chicago, Wisconsin, South Dakota, Paris, Moscow, Kiev and Alesia, Italy. Here they picked up their two sons, Donald and Bruce, who have been staying for the past three years with Rev. and Mrs. Redfield, old friends of Mrs. Traub.

Sunday evening Mrs. P.A. Finlay, also a missionary who recently returned from Africa, spoke in the United Missionary Church in the afternoon and in the evening Rev. Traub spoke in the same church to a full house and both messages were greatly appreciated by the respective audiences.

## Work to Start on Sewer Mains July 1

The regular meeting of the Council of the Town of Didsbury was held in the Town office on Monday evening, May 16 when a letter was read from Haddon and Miles, engineers in charge of installing the water and sewerage system in the town, and from information given in this letter it was learned that all necessary material for the system had been ordered and that it was expected that actual construction work would start about July 1st. The sewer pipe will be shipped the latter part of May and when work starts the laying of sewer mains will be done first.

Building lots were sold to Wm. Blore and T. Dageforde.

Council decided to purchase a truck for fire protection purposes.

E. B. Sowers of Calgary is making a new assessment of every building in town and when completed he will turn in his report to the town council and it is expected that the 1949 mill rate will be based on the new assessment.

## Road Work Petitions Received By Mountain View Council

At the regular meeting of the Council of the Municipal District of Mountain View No. 49, held in Didsbury on Monday, May 9, several petitions were received for road work on a one-third basis.

Residents of the Elkton district asked for grade and gravel two miles south and one mile west of the Little Red at Elkton.

Other petitions requested special grants for travelling from Reed Ranch store south three miles and one mile east; from Reed Ranch store north and east, four miles; for travelling four miles east of Hatcher school; and for travelling from Hatcher's corner three miles west. In connection with these five road projects Council requested the secretary to make application to the Department of Public Works for three-way grants.

Approval was given to authorize a business license to H. Redline of Westward Ho to add a hardware stock and to Jas. J. Phillips of Sundre for a lunch counter.

Approval was also given to V.L. Brown of Cremona for the estab-

lishment of a slaughter house.

The necessary resolution was passed to provide for a road diversion survey on the northwest of 31-32-2-5 west of Olds.

Approval was given by Council for construction of a power line in the Torrington and Wilmore districts.

Councillor Niddie was appointed to lead a tour of the Red Lodge Provincial Park, west of Bowden.

Communications from the department of municipal affairs advised of the various amendments to municipal regulations which were passed at the last session of the legislature, among them being the repeal of the business tax by-law in municipal districts and substituting a personal property tax. In this connection the necessary personal property tax by-law has been passed by Council.

Accounts and pay sheets completed the business of the meeting.

## MOUNTAIN VIEW

Mr. and Mrs. Stewart Hall and son Warren were visitors with Mr. and Mrs. H. Shultz Monday evening.

Mr. and Mrs. Hedegaard travelled to Lymore last Tuesday and returned home on Wednesday.

Mr. and Mrs. B.A. Atkinson and Kathleen visited Sunday with Mr. and Mrs. Gibbs.

Mr. and Mrs. Harold Shells and family visited Mr. and Mrs. Joe Hunter on Sunday afternoon.

Mr. and Mrs. Rex Dawson entertained Mr. and Mrs. W. Bruce and Mr. and Mrs. John Bruce and family on Sunday.

Joseph Neufeld was home over the week end.

Mr. and Mrs. J. Worrall visited with Mr. and Mrs. B.A. Atkinson on Sunday evening.

Mr. and Mrs. W. Bruce and Mr. and Mrs. John Bruce, Virginia and Billy, visited Calgary on Friday and brought home some chicks.

Mr. and Mrs. Louis Kohut and Mrs. E. McNeill were in Edmonton over the week end.

Mr. and Mrs. Otto Rittner and Mr. and Mrs. J. Worrall drove to Three Hills on Sunday and came home by way of Sunnyside.

Mr. and Mrs. W. Shultz spent Friday evening with Mr. and Mrs. Tom Finlay.

Mr. and Mrs. Bob McCulloch drove to Sundre on Sunday and visited with Mr. and Mrs. Ray Johnson.

Mr. and Mrs. Tom McCaig returned to Calgary after being in the neighborhood for the past week.

Don't forget the M.V. Women's Institute meeting this Thursday at the home of Mrs. A. Gebers.

## International Conference to Discuss World Resources

Plans have just been completed for the holding of a new kind of international meeting. It is the first conference of scientists to be convoked by the United Nations. More than that, the United Nations Scientific Conference on the Conservation and Utilization of Resources, to begin next August 17, will be the first occasion on which experts in the many techniques of utilization of resources will come together from every continent to view the world picture as a whole.

Said men, forest men, power men, mineral experts are used to meeting in separate groups to discuss their own special problems. At this conference these and other similar groups of experts and administrators will pool their specialized knowledge in a concerted attack on the world's resource development problem.

The warnings that the world's resources are running out will be seriously discussed. It is known that there is a dangerous waste of resources in every country and an important part of the business at the proposed meeting will be to find and make known ways of stopping it. It is also known that no country on earth has ever made full use of the resources it possesses.

es for the enrichment of human life. The hope of the Conference lies in world wide application of the great powers of science to make possible a wiser and fuller use of natural resources as the basis of a sustained advance in the standard of living.

Six hundred and fifty invitations to prepare papers for the Conference have been sent to individuals and agencies in 65 countries. The majority of responses have been favorable and many of these papers have already been received at Lake Success.

The final program has been planned to give an opportunity for the specialists to exchange genuinely technical advice within the range of their specialties and at the same time to bring to the attention of all the people concerned the interrelations of the problems of wise utilization.

## No Fisherman Tries Just One Cast

Nobody expects to reel in a trout the first time he casts his fly. The good fisherman makes sure he has something the fish will take, picks out what should be the best spot and then makes one cast after another. Usually his patience is rewarded with a good catch to take home.

IT'S THE SAME WAY  
WITH ADVERTISING

The wise merchant doesn't expect to reap a big harvest of customers on the first ad. Rather, he makes sure he is advertising something the people want, checks to see what paper reaches the most readers who have money to buy and reaches them with the news they most want to read, and then runs a carefully planned series of attractive ads. This wise merchant knows that only a series of casts will catch the fish, that only steady advertising will put him first in the mind of all prospective customers.

### TWO GUYS' TAKE OVER TEXAS IN NEW MUSICAL

Warner Bros.' handsome new technicolor musical round-up, "Two Guys From Texas," co-starring Dennis Morgan and Jack Carson in a hilarious rodeo of rhythm and laughs, will be the attraction at the Didsbury Opera Theatre Thursday, Friday and Saturday, May 19, 20 and 21.

Songs, hoists (also the "wolf variety") and 50 gorgeous girls on horseback presented against a lavishly tinted background of dude ranches, moonlight prairies and desert gardens, embellish this new musical entertainment.

Dorothy Malone and Penny Edwards share feminine honors opposite the two leading funsters, Morgan, equally at home in musical comedies or drama, plays a happy-go-lucky one-night-stand artist in this film. This is his first musical since "My Wild Irish Rose."

Carson is teamed as his partner, who is also stranded in the Lone Star state and is willing to sing for his supper at an exclusive dude ranch. One of their outstanding duets which is heard is "I Want To Be A Cowboy in the Movies."

The rodeo sequence, created and directed by LeRoy Prinz, features 50 beauties on horseback, who disport in a spectacular routine. "At The Rodeo" is the musical theme for this particular number.

The girls appear in natty wild west garb, topped by Indian head-dresses and other trick effect which lifts the rodeo out of the usual class.

### Big Game Bag Limits Reduced For 1949

Reduction in the bag limits from six animals to three are prescribed in Alberta's big game regulations for 1949, released today by Hon. N. E. Tanner, Minister of Lands and Forests. Instead of a moose, an elk and a deer as in 1948, only one of these animals may be taken during the 1949 season. Last year hunters were allowed both a sheep and a goat but under the new regulations only one of the other of these animals may be taken.

Diminishing supplies of big game have necessitated the step. The season for sheep and goat opens September 15th and runs to October 15th throughout the province. Season for deer, moose and elk extends from November 1st to November 30th. For grizzly bear, black brown or cinnamon bear there will be two open seasons, first from September 15th to November 30th and again from April 1st to 4th of next year.

Co-incident with the release of the big game regulations, Mr. Tanner announced that on and after May 1st, 1949 fur royalties on all coyotes, badgers and skunks killed in the province are cancelled. The Minister stated that this step was taken to encourage hunters in their campaign against these predatory animals. Prior to cancellation royalties to the amount of 15c for badger, 10c for skunk, 25c for coyotes were collected.

In the seasons outlined above, both residents and non-residents will be allowed to take three animals under a big game license. One of these may be either a male sheep or a male or female goat. Another may be either a male deer, a male moose or a male elk. The third may be either a grizzly bear, or a black, brown or cinnamon bear. In the case of any kind of a bear, female with cubs are protected.

Special licenses may be issued to both residents and non-residents for taking their quota of one deer, elk or moose from September 15th to October 15th in that portion of the Athabasca Forest Reserve lying west of the South Sulphur River from the Jasper Park boundary to its junction with the Smoky River, thence following the Smoky River to where it intersects the north boundary of the Forest Reserve.

The various license fees and royalties are set in the regulations as follows:

Non resident	
License to take up to three big game animals	100.00
Special license	25.00
Royalty for each grizzly bear	50.00
Royalty for each black, brown or cinnamon bear	10.00
Resident	
License to take up to three big game animals	5.00
Special license	5.00
Royalty for each grizzly bear taken	2.00

Outfitters and Guides  
License fees have been changed as follows:  
Class E non-resident outfitter's license 75.00  
Class A resident outfitter's license 25.00  
Class B outfitter's license 15.00  
Class C outfitter's license 10.00  
Class D outfitter's license 5.00  
Guide's license A or B class 2.50  
Guide's license class C 1.00

Tagging of big game by notal seals will be required during 1949 as in last season. This regulation applies to both resident and non-residents of Alberta.

### The Salvation Army Is Doing Good Work

Few organizations operate such wide-spread facilities for the amelioration of want and suffering as The Salvation Army. In home, hotel or hospital, all its efforts are in the Name of Him who said, "Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto Me."

By multiplied methods The Salvation Army takes "light to those who sit in darkness." Both by message and means, hope is inculcated and care is afforded those who are the victims either of their own wrongdoing or of the misdeeds of others.

Those whom The Salvation Army helps represent a variety of human needs. Some are forgotten. Some need material aid. Many are sick in spirit. It is the mission of The Salvation Army to help those who are at odds with themselves, their Maker, and the world. And its record during 80 years of activity is a successful one. The Salvation Army is good at its job!

The interest of The Army has meant the difference between health and sickness, between comfort and misery, even between life and death, to tens of thousands of people whose needs have been such as to bring them within the wide sweep of The Salvation Army's ministrations.

During the Red Shield Appeal for funds, currently in progress, the people of Didsbury and district have an opportunity of helping The Salvation Army in its tremendous, self-imposed, need-demanding task. Let us all "give from the heart" to an organization which has abundantly demonstrated its willingness to "serve from the heart."

In Didsbury the Salvation Army's Appeal is being sponsored by the Didsbury Lions Club. Bill Payne is chairman of the local committee and if you haven't been canvassed you can leave your donation with him.

### HIGHWAY BRIDGE SOUTH OF INISFAIL BURNS RECENTLY

The bridge on the highway about two miles south of Inisfail was burned on the night of Thursday, May 5, according to a news story in the Inisfail Province.

Inisfail was called upon to help put out the fire as there was no water in the creek under the bridge. The town took down all its fire extinguishers, but the fire was too far advanced to do anything with them so the bridge was completely destroyed. This made it necessary to detour all traffic over the old highway and the dust was so bad that only about 6 feet of visibility was possible. Inisfail was then asked to supply water to sprinkle the highway until such time as the government could rush equipment to set up a pump at a nearby lake.

The pump is now in operation at the lake and a gang of men are busy putting in a new bridge. This will be completed as soon as possible.

The fire appears to have started from burning grass.

### AIR CAR-FERRY

Silver Airways Ltd., an associate of British European Airways Corporation, has instituted a schedule of air-ferry service operating four times a day each way across the English Channel between Lympne in Kent and Le Touquet, France. The fare for the single journey will be \$112 for cars up to 12 h.p., including four passengers and luggage. The service is run with Bristol Freighter Aircraft and started operating on April 14.

### AUSTRALIAN TRACTORS

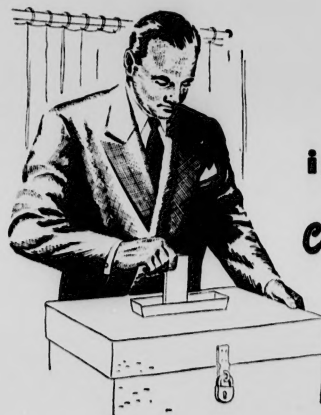

There has been a great shortage of farm tractors in Australia for the past ten years. Estimated annual demand for all types is placed at 10,000, while requirements during the next few years are in excess of 20,000.

### PROTECT OUR FISHING STREAMS

The complaints registered with the Didsbury Fish and Game Association regarding the shooting of pike in the Little Red Deer river, and the setting of nets in Fallen Timber river brought the suggestion that these streams be more closely patrolled by wardens in the hopes that these infractions of the fishing regulations may be stopped.

However, there should not have to be any drastic action taken to stop a practice which everyone knows is detrimental to the future of our fishing recreation in this province, and we appeal to our readers for closer co-operation with the game associations in protecting fishing streams for present and future enjoyment.

We all know that infractions of fishing regulations of the above nature are isolated cases and not general in this area, and if the offenders would only realize that they are doing more harm to their favorite sport than the value of the few extra fish they may take in an illegal manner, we believe that future infractions of the above nature will not occur, especially when one considers the extreme penalties provided by the Alberta fisheries department for illegal fishing methods.

### SHOULD SET AN EXAMPLE

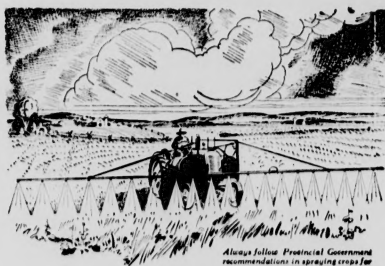

The United States should take the advice of its own spokesmen and really reduce trade barriers, asserts The Financial Post. "Hardly a day passes but some American spokesman is urging the countries of Europe to ease their tariff and other restrictions and start trading. Unless these people are willing to accept each other's goods they can't expect to sell their own surpluses, it is argued. That's sound advice, but unfortunately for the world the United States itself has been all too reluctant to accept it.

"So far as the lowering of normal tariffs is concerned, it is true, there has been significant progress by our big neighbor since the war. But a highly effective invisible tariff remains. Hardly a dent has been made in this.

"This invisible wall is made up of special quotas, arbitrary valuations, unnecessary quarantines, official red tape and, above all, the apparently firm determination of many customs officials to keep out the other fellow's goods by one way or another.

"So long as this sort of thing is permitted there is little hope of building up any great new trade with the United States, and formal tariff cuts may be meaningless."

## Want Ads Pay . . .

Always follow Provincial Government recommendations on spraying crops for most effective weed control.

## The safe, modern way to EFFECTIVE WEED CONTROL

Any preparation of 2,4-D will help control stinkweed and mustard, but Shell Weedkill gives safe, effective control at a low cost per acre. The reasons are that Shell has combined the safer approved amine type 2,4-D with a special wetting agent to give more positive results even under unfavourable conditions. Shell Weedkill is now obtainable in tamper proof one gallon cans, as well as five gallon cans and drums. See your Cockshutt dealer about this year's spraying requirements, right away!

## Letter to the Editor

The Editor,  
The Didsbury Pioneer.

It is now more than four weeks since the people of Didsbury voted by an overwhelming majority in favor of installing a water and sewerage system in the town. Since the result of the vote was declared, which showed the Town Council that the residents were solidly behind the project, we have had no further information on progress of this all important scheme. Two years ago the vote was equally decisive, yet the whole scheme was shelved for some obscure reason. If the people record a vote so definitely in favor of a project they have the right to expect their elected representatives to tackle the matter in a forthright fashion and produce results. In this case what we are interested in is hearing that a contract has been signed with the engineers, and the date work is to start in town. In a recent article in the paper it was stated that the surface wells in town are chemically contaminated and unfit for drinking. Is this not even a more important reason for an immediate start on the scheme?

Innisfail and Olds stepped in ahead of Didsbury on the matter of waterworks and who can deny they haven't benefited by increasing building permit applications?

There is little doubt that the town has suffered financially and what has been Olds' gain in some instances should rightfully have been Didsbury's. Is Didsbury going to fall down again in the race of progress for lack of initiative? Already several weeks have passed of ideal weather for outdoor construction work which have been lost.

This is a turning point in the history of the town, and residents want their demands met in the form of seeing work really started and energetically continued. All residents seem very content to let this matter slide along without being seriously questioned. We have patiently accepted excuses, snags and difficulties pertaining to this project long enough. It's time that people came into the open and spoke their minds. So what do you think?

L. C. ALLAN

## GAUNTLET FOUND ON HOLLAND COAST BELONGED TO AMERICAN

Red Cross receives strange commissions in its broad program of work around the world, but none stranger than the one involving a German ex-prisoner of war in Russia, a glove and an American who served in the R.C.A.F.

The story of the glove was told recently at the annual meeting of the Red Cross Society's central council, as an example of the sort of thing the Enquiry and Tracing Bureau is sometimes called upon to do. The Bureau has the job of tracing missing persons for anxious relatives and friends all over the globe.

A month ago the Bureau received a gauntlet through the mail. It was a sturdy leather gauntlet, well-worn and muscled. With it came a letter, via the British Red Cross, and postmarked Germany.

"Some weeks ago," the sender wrote, "I returned from a Russian prison camp and now I would like to use this opportunity to contact you. . . . At the end of October, 1942, what seemed to be an English plane flew over the coastal place, Noordwijk-Zee in Holland, between Haag and Amsterdam, and came down about 100 metres out to sea. The crew sent up light signals so that the German troops stationed nearby knew they were in trouble. Due to the bad storms that night it was not possible for rescue squads to take any action. During the night the coast was searched by German soldiers for any trace of these airmen, but without result. The following morning I found this glove on the shore.

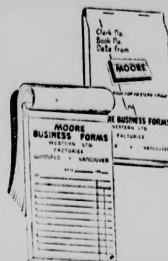

"Inside the glove is inscribed a name, a number, and as you will see the letters R.C.A.F. I sincerely trust that it will be possible for you to contact the next of kin and pass this last effort on to him.

Four weeks later, which brings the story up to date, the Bureau located the airman himself, ex-Sgt. J.A. Potts, an American National who served with the R.C.A.F. until January 1945, when he joined the U.S. Forces. He is alive and well, living in Minneapolis, Minn.

His gauntlet, he wrote, makes an interesting war souvenir of a hair-raising time and he's glad the glove isn't the grim memento the German sender expected it to be.

## NEW FODDER PLANT

According to reports from Soviet sources a perennial plant of particular drought, heat and cold resistance has been produced by crossing Johnson grass with sorghum. It is reported that 50 thousand acres will be sown as the first large scale planting and this acreage will be increased to 250 thousand by 1950.

Canadian railways are turning to the use of diesel locomotives in order to reduce high operating costs.

## WEDDINGS

KRAMER — MELLON

On the evening of May 7th at seven o'clock a wedding of interest to people in Calgary and Elkton was solemnized at St. Stephen's Church, Calgary, when Elizabeth (Beth) Mellon, daughter of the late Mrs. Mellon of Calgary was united in marriage to Mr. Herbert Kramer, son of Mr. and Mrs. Kramer of Calgary. The ceremony was performed by the Rector, Rev. Canon Madocks.

The bride was given in marriage by her brother, C.E. Mellon, and looked lovely in a white sheer floor-length gown with a Juliet cap of orange blossoms and a short veil. She carried a bridal bouquet of red roses and white chrysanthemums.

Her only attendant was Miss Maxine Burroughs of Calgary, who wore a turquoise blue taffeta floor-length gown with bodice of lace and elbow gloves the same shade, and a small wreath of orange in her hair.

The groom was supported by Mr. C.E. Mellon of Calgary.

The church was decorated with beautiful cut flowers and potted ferns and organ music was played before and after the ceremony.

After the ceremony a reception was held at the home of Miss Edith Astell. She was assisted by Mrs. C. Fleming. Both are aunts of the bride. Mrs. E. Astell, another aunt, presided at the bride's table and poured, while young relatives and friends of the bride and groom served. The table was covered with a hand-worked lace cloth and centered by a three-tiered wedding cake and vase of lovely cut flowers.

There were about fifty guests present and Canon Madocks pronounced the toast to the bride. The groom responded and thanked all who had helped in making the evening such a happy event.

Following the reception Mr. and Mrs. Kramer left by motor for a trip to Great Falls, Montana, and on their return they will reside in Calgary.

For travelling the bride wore a dark red suit with white accessories.

The young couple were the recipients of many lovely gifts, including money, a silver tea service, silver flat ware, as well as gifts of china, linen and wool goods.

Previous to her marriage the bride was a valued employee of the Alberta telephone exchange in Calgary, and the groom is in the garage business in Calgary.

Out of town guests were Mrs. Warren of Acme, Miss Betty Belmer of Wimbome, Mr. and Mrs. George Adamson of Bergen, Mr. Ronald McMullen of Queenstown, Mr. Raymond McMullen and Mr. and Mrs. R.E. McMullen of Elkton.

Wednesday evening, 8:00 p.m. — Bible study and prayer meeting.

Thursday evening, 8 p.m. — Choir practice.

Alternate Sundays at Bethel and Jutland: 2:00 p.m., Sunday school followed by worship service.

The pastor and congregation extend a cordial invitation to everyone to worship with us. "Come and we will do thee good."

## CANADIAN CURLING TEAM TO VISIT SCOTLAND NEXT YEAR

P. I. Evans, secretary of the Didsbury Curling Club, recently received a letter from the Alberta Branch of the Royal Caledonian Curling Club setting forth the arrangements being made for the proposed trip of Canadian curlers to Scotland early in 1950 and below is a brief summary of these regulations:

The number invited is 50 curlers. Travel arrangements to a limited extent may be made for wives and dependents of members of the team.

The prospective time of departure for Scotland will be immediately after Christmas 1949 or early in January 1950 and length of time in Scotland approximately one month. Eight players will go from Alberta, four from the north and four from the south.

Local clubs can nominate one of their members for a place on the team and names of nominees should be in the hands of the secretary not later than August 1, 1949.

Cost of the tour is estimated from point of embarkation to point of disembarkation at from \$1200 to \$1500 per man. This does not cover rail or other travel costs from home to point of sailing.

Upon selection of the team early in September \$500 will be required to be paid at once and the balance

as soon as available accommodation is selected.

If any local curler, a member of an affiliated club, wants to be nominated to make the tour of curlers to Scotland he should notify the secretary of his club before August 1st.

## FOOD FOR TOURISTS

It costs U.S. visitors \$60 million to feed themselves while visiting Canada last year, but this figure doesn't tell all. For, upon the manner in which the food end of the tourist business is handled, much of the entire \$270 millions traffic depends.

Canada's competitors for the tourist dollar are well aware that one way to the tourist's heart, no less than to a husband's, is through the stomach, and it has long been felt that this country is missing a good promotion bet here.

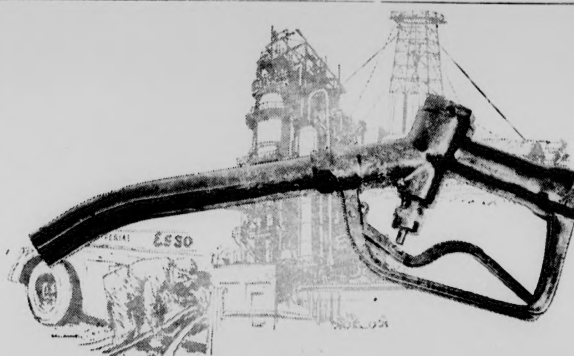

Something is being done about it now. At last Canada is at work on a "gastronomic" map. Each province is going to feature a special dish and stress this on tourist menus.

## THEN THE FIGHT BEGAN

"Ticket, sir!" said the gateman to a pompous gentleman who, having seen a season-ticket holder for some time, believed his face was so well known there was no need for him to show his ticket.

"My face is my ticket," said the man a bit annoyed.

"Indeed!" said the gate man. "Well, my orders are to punch all tickets passing on to this platform."

## There's a big investment behind the gas for every car

Finding oil and bringing it to you—in the kind of products you need, and at low prices—is a big job and takes a lot of money. Behind that dependable supply are thousands of Canadians engaged in finding, producing, transporting, refining and marketing—working with tools that cost hundreds of millions. But the investment in those tools is your guarantee of adequate supply and minimum price.

**FIRST**, the oil must be found. This means expensive equipment and the risking of money in patient search. A single deep test drilling rig is worth half a million dollars and one unsuccessful well in the Alberta foothills has cost more than a million. Then when oil fields are found, they must be developed; just to drill and equip one well in the Leduc field costs about \$100,000.

**SECOND**, crude oil must be transported to a refinery. Tank cars, pipe lines and ocean and lake tankers are the vehicles. A large pipe line may cost \$100,000 a mile; Imperial's largest tanker, just put into service, cost more than \$5 millions.

**THIRD**, the crude oil must be refined into hundreds of useful products. Large and complex refining units are the workman's equipment here. To meet your increasing needs for more and better products Imperial since the war has added refining capacity to process an extra 31,000 barrels per day. The cost was more than \$30 millions.

**FOURTH**, the products must be marketed—this means they must be made available to you when and where you need them. The tools of the marketer are such things as service stations, truck fleets, coastal ships, barges, oil drums and tanks. This equipment, too, adds up to millions.

Canadians are using twice as much oil as in 1939. To help meet your increasing needs Imperial has sought and found new fields, built ships and pipe lines, erected new refinery units, installed new marketing equipment. It costs more than twice as much to do these things as before the war.

The money we needed to do these things came from borrowing, from the sale of investments and from earnings put back into the business after paying dividends.

This money is helping to provide the tools to bring you all the oil you need—at the lowest possible price.

Bringing you oil is a big job—and a costly one.

## IMPERIAL OIL LIMITED

If you're interested in facts . . .

The price of a gallon of gasoline today is about the same as the price of a gallon of distilled water.

For years before the war the wholesale price of gasoline dropped almost steadily and although it has been caught in the general upward of costs it has not increased nearly as much as other commodities.

Since 1939 the general wholesale price index has more than doubled but the petroleum products price index has advanced by less than two-thirds.

On its 1948 operations Imperial earned a profit equivalent to less than one cent a gallon for each gallon of products sold.

Use 2,4-D for . . .

REGULATIONS REGARDING  
SIGNS ON MAIN HIGHWAYS

With the advent of early summer the businessman's fancy turns to thoughts of outdoor advertising. However, according to J. H. Holloway, Director of Town Planning for Alberta, there are certain provisions of the law regarding the erection of signs and billboards along side of main highways.

Outside of incorporated cities, towns and villages, no person, corporation or religious or political body may install any device bearing advertising or promotional matter so as to be visible from any numbered highway, unless it is on the advertiser's own premises where he transacts his business. On business premises adjacent to a main highway, signs indicating the nature of the goods for sale or the services offered may be placed, but they must not be more than 100 feet away from the main building in which the business is conducted, nor may they be closer than 27 feet to the limit of the highway right-of-way, nor must they be so large, numerous or dilapidated as to be of unsightly appearance.

Apart from this exception, the only other signs allowed on or adjacent to main highways are directional signs essential for the guidance of the travelling public, for which permits must be obtained before they are erected. In special cases, permits for other types of signs of general benefit or convenience to the public may be granted by the provincial Town and Rural Planning Advisory Board upon application to the Edmonton office.

The erection of signs in incorporated urban areas or on land adjoining local or municipal roads is governed by such municipal regulations as may be in force. The provincial regulations outlined above refer only to main provincial highways under direct administration

of the province.

It is the object of these regulations to preserve the attractive appearance of the Alberta countryside and to reduce accidents by banning roadside features which may unnecessarily distract the attention of motorists from their driving. Alberta has an enviable reputation throughout the North American continent for the absence of outdoor advertising along its rural highways and from the standpoint of the tourist trade alone, that reputation is well worth maintaining.

MORE THAN 3,700,000  
MEDALS BEING MINTED

The amount of work that has gone into the minting of medals, campaign stars, clasps, oak leaves, the eagerly awaited Service decorations of hundreds of thousands of Canadian men and women, is revealed in figures released this week at Ottawa.

As almost everyone who enlisted for "active service" is entitled to the "War Medal", some 1,000,000 have been ordered. For sheer numbers this is rivaled only by the Canadian Volunteer Service Medal of which 900,000 medals and 524,000 clasps, denoting service outside Canada are being struck.

Other decorations and the number on order at the Mint are: 1939-45 Star, 288,000; Atlantic Star, 5,200; Italy Star, 102,500; France-Germany Star, 250,000; Defence Medal, 160,000 and the Air Crew Europe Star, 12,000.

## CHLORDANE COST

Provided farmers order through their municipal district office the cost of using chlordan as a grass-hopper spray this year will be about 75 cents per acre. One gallon of chlordan will cost about \$8.00 and will cover thirteen and one-third acres.

## Red Tape Tales

According to the Associated Press despatch from London an Englishman can now use his dirty bath water to wash his automobile.

This ruling, made by a county court registrar, saved a London motorist a fine of roughly \$1.50 after he was hauled into court on a Metropolitan Board charge that he had used water, albeit dirty, supplied at domestic rates, to wash his car. The board sued to collect an extra bill on the grounds that the owner was a commercial user of water. The understanding jurist in charge of the court dismissed the suit, saying the bath water would have gone down the drain anyway.

This common-sense ruling may never become famous in the reference books on law, but the case itself proves that the Englishman of today has to step warily through life to avoid the skein of bureaucratic regulations that threatens to trip him momentarily as he tiptoes down the straight and narrow path of regimentation.

But, ringed by socialistic rules without end, the modern Englishman has not completely discarded the "reactionary" profit motive, nor has he lost that spirit of adventure that made him the greatest commercial explorer in history. They're now chuckling over the story of the Londoner who walked into a Strand tobacco shop and purchased 300 cans of lighter fluid at a fantastic price. The store owner was mystified as he bundled the unusual order.

"It's this way," confided the purchaser, "I put the fluid in the petrol tank of my car and drive out to the country to buy eggs. I'll admit buying petrol this way is expensive, but I make an enormous profit on my eggs."

## Tree Car Visits Didsbury

In co-operation with the Canadian Pacific Railway Company the Canadian Forestry Association Tree Planting car was in Didsbury on Wednesday, May 11 in charge of J. Coats of Winnipeg who as well as putting on a show in the car for public at night, presented part of the program in the school in the afternoon.

As well as the tree planting car the Forestry Association has two trucks on the road carrying on similar campaigns for tree planting and conservation.

Mr. Coats said that the tree planting campaign was getting a very favorable response all over the country and a lot of tree planting is being done.

Electric Power  
From Windmill

A contract for the design and construction in the Orkneys of an experimental windmill to generate electricity, the first of its kind in Britain, has been placed in the North of Scotland Hydro Electric Board with John Brown and Co. The diameter across the blades will be about 60 feet and it will generate about 100. The board is cooperating with the electrical research association which, at the request of the government, is investigating the practicability of generating power on a large scale from the wind. The association began its preliminary work in the Orkneys in July of last year, recording wind speeds on the exposed northwest coast of the Mainland and the design of the windmill can now be put in hand.

**A** CARPENTER can be no better than his tools. Nor can a farmer. Nor can a teacher.

What are the facilities available for the teachers of your children?

A.T.A.

GIVE GENEROUSLY TO THE SALVATION ARMY NATIONAL APPEAL NOW IN PROGRESS

"We Liberals have dedicated ourselves to maintaining a high level of employment and income, because that means a high and widely distributed standard of living for our people."

Prime Minister Louis St. Laurent

You share—  
every Canadian shares—  
in the greater

Opportunity  
Prosperity  
Security

brought about by  
constructive Liberal policies

Liberals mean what they say. Look over the record of the last five years—the most impressive period of prosperity and growth in our history. It shows that Liberal performance exceeds Liberal promises.

Under Liberal policies, Canadians can be confident that this forward march will continue—that Liberal promises will again be carried out.

Protect your stake in  
OPPORTUNITY, PROSPERITY, SECURITY

**VOTE LIBERAL!**

INSERTED BY NATIONAL LIBERAL COMMITTEE

**More Jobs—More Income**  
More people are working than in any previous peacetime period—nearly a million more than in 1929. National income is three times as high as in 1929, is more widely distributed than ever before.

**More Production and Trade**  
The products of our farms and forests, factories and mines and fisheries are worth twice as much as ten years ago. And Canada's exports are more than four times greater. Canada is the world's third largest trading nation.

**More Old Age Pensions**  
Federal payments have been twice increased since 1915. The new pension basis is now increased to \$10.00 a month, providing greater comfort and security for the aged and blind.

**Aid to Home Builders**  
Close to 300,000 dwellings have been built since the war. More homes have been built in Canada, in proportion to population, than in any other country, and more were built last year than any time in our history.

**More Savings**  
People have nearly 2½ million more bank accounts than before the war. They have put aside more than 4 billion dollars in personal bank savings.

**More Family Allowances**  
The federal government has, since 1915, set aside one billion dollars in Canada's children. Four million boys and girls in 1½ million families are receiving a better start in life. Benefits are being extended this year.

**National Health**  
Health grants to provinces are helping to build a stronger nation. Many projects are already under way: more province-wide health surveys; 15,000 additional hospital beds; training for health specialists; increased health services and research.

**And lowered taxes as well!**

By careful administration the Liberal government has established these records and been able at the same time to cut the national debt by 1,625 million dollars. And every budget since 1915 has announced lowered rates of taxation.

### FALLEN TIMBER

We wish to announce the arrival of quintuplets, to a goat at the home of Mrs. Teynor St. The mother is a gentle goat and is doing nicely.

Mr. and Mrs. J.H. Cooper and Mr. and Mrs. George Admussen attended the wedding of Miss Beth Mellon to Mr. H. Kramer, in Calgary May 7. Mr. and Mrs. E. McMillen, Raymond, Donald and Miss Betty Reimer were also guests at the wedding of Miss Mellon.

Mr. and Mrs. Eric Nelson were supper guests at the home of Mr. and Mrs. A. Moore recently.

The regular meeting of the Busy Bees was held at the home of Mrs. Bill Moncey, with thirteen ladies present. It was decided to have a social at the school on Friday, May 27. It was also decided to send the school children on an educational tour to Calgary sometime in June. A delightful lunch was served by Mrs. W. Roberts and Mrs. Teynor St.

Mr. and Mrs. Bob McGaffin, Mr. W.H. McGaffin, Jacquie McGaffin and Mr. Mark Sweet were visitors at the home of Mr. and Mrs. A. Moore on May 8.

Master Barry McGaffin was a week end visitor at the home of Mr. and Mrs. A. Moore recently.

Mr. and Mrs. H. Russell visited at the home of Mr. and Mrs. Bill Moncey on Sunday, May 8.

Mr. and Mrs. C.B. Moore and Mr. and Mrs. J. Howton were supper guests at the home of Mr. and Mrs. Cooper on May 8.

Mr. and Mrs. Wannamaker's daughter and son-in-law and two small children are spending the summer at the former's home.

Mrs. Fair was a Didsbury visitor recently. We are very glad to report that her health is greatly improved.

Mr. Billy Dick was a week end visitor at the home of Mr. Glenn and Mr. James Cooper recently.

The regular church service under the direction of Rev. C. and Rev. B. Moore was held Sunday, May 8. At this service three babies were christened: Charlene Rose, infant daughter of Mr. and Mrs. W. Roberts; S. Keith, son of Mr. and Mrs. H. Russell, and Robert Cecil, son of Mr. and Mrs. W. Moncey. The next service will be held on May 22.

The Cooper boys really seem to have their power saw in good working order and are taking advantage of the fine weather.

We are glad to see that fishermen and plunkers are very carefully extinguishing their fires before leaving.

Mrs. J.A. Howton and wee Danny are spending a week or two in Calgary at the home of her parents, Rev. and Mrs. C.B. Moore.

Mr. J.A. Howton spent the week end in Calgary.

### WEST NOTES

The Elton Willing Workers met at the home of Mrs. Glen Evans last Wednesday with most of the members present. Potholders were made and Mrs. K. Konechuh put the blocks together for the afghan and crocheted around the edges, and it is to be raffled later. It was decided to make a cushion of the squares that were left over. The members decided to sponsor the school picnic and there was considerable discussion on the ice cream subject but it was finally decided that what members could do so would make it at home. It was also decided to serve lunch at 5:00 o'clock instead of at noon as so many in recent years have had dinner at home. The next meeting will take the form of a tea and will be held Wednesday, June 8 at the home of Mrs. J. Bagshaw. 25 cents is to be charged and everyone is welcome. Each member is to supply an article for the sale. \$5 was donated to the Salvation Army.

Mr. and Mrs. A.L. Hogg visited with Mr. and Mrs. E. W. Lowrie on Sunday.

Mr. and Mrs. B. Rinehart and Mr. and Mrs. W. Savelle were dinner guests with Mr. and Mrs. Robin Sutherland on Sunday.

Mr. and Mrs. M. Campbell and Mrs. M. Campbell Jr. were Calgary visitors on Saturday.

Mr. and Mrs. Gordon Refus left Sunday to spend a week at Yorkton, Sask., where they will attend the wedding of the latter's sister, Rose.

Mr. and Mrs. E. Fisher visited with Mr. and Mrs. J. Bagshaw on Sunday afternoon.

Mr. and Mrs. H. Stelss' nephew from Ontario spent the week end with them.

Mr. and Mrs. C. Byri were Calgary visitors on Friday.

80 degrees in the shade one day and now just 29 above and snow.

The Salvation Army Appeal is worthy of your support. Leave donations with the chairman of the local Lions committee, Bill Payne.

### BURNSIDE NEWS

Mrs. Arthur Jenkins, mother of Dennis and Dick Jenkins, is a patient in the Didsbury hospital and we wish her a speedy recovery.

Mr. and Mrs. Wm. McCulloch Sr. were dinner guests Friday with Mr. and Mrs. Howard Fross and visited over tea at the district.

Vigo Torpe of Calgary, an old-time resident of the Burnside district, visited last Wednesday with Mr. and Mrs. Ivan Weber. We understand that Vigo leaves in about two weeks time for a trip to his native home in Norway, and that he will travel by plane.

Acacias seems to have made the rounds of the entire neighborhood and while some children are just getting over them, others have contracted the disease.

Later November Mrs. Mardon was surprised to find her blue buses in bud and thought they would winter kill, but this week the bushes are a mass of bloom despite the early season budding.

All the farmers are still busy and nearly all the wheat has been seeded, and although the spring has been extremely dry the early sowing which is now showing green above the ground.

Your correspondent finds it difficult to get interesting news items for this column. If you have news of interest it would be appreciated.

### WESTERDALE NOTES

The unusually hot dry weather of the past several weeks came to an end Monday afternoon when rain began falling about 4:30 p.m., accompanied by a strong, cold wind from the north west, and mixed snow and rain fell during the night.

The Westerdale school pupils played a game of softball with the Springdale school children on Friday afternoon and were victorious by a 20-15 score.

Mr. and Mrs. W. Herkert enjoyed a motor trip to Delta and Drummond on Sunday and report considerable soil drifting in those localities. Accompanying them on the trip were Mr. and Mrs. A. Waldriff and family of Zella.

A meeting of the Westerdale Willing Workers was held at the home of Mrs. A. Jackson last Wednesday afternoon with sixteen members present. Roll call was answered with "your husband's pet saying." The usual business session proceeded in the usual manner.

A motion was passed that the society hold a picnic on July 13, with final plans to be made at the next meeting.

A discussion took place regarding the purchasing of material for curtains for the hall stage and it was decided to write for samples of materials and have them on hand for selection at the next meeting.

A motion was passed that a table be purchased or the material to make a table to install over the cold air ventilator pipe in the hall kitchen.

The tea money draw prize was won by Mrs. L. Jones.

The next meeting will be held at the home of Mrs. L. Jones on Wednesday June 8.

The Hartmann baseball team trounced the local boys by a 15-5 score in their first league game played at Hartmann on Sunday. The local boys play at Hillcrest next Sunday afternoon.

### CREMONA ITEMS

The Cremona Girls Sewing Club meeting was held on May 10 at the home of Miss Nola Waterstreet.

A re-election was held with Miss Betty Johnston being elected secretary treasurer, while Mrs. Baker still remains president. The re-

election of the evening was spent in cutting out and sewing baby dresses. Lunch was served by Miss Waterstreet.

Little Lavern Loewen is suffering from head aches and fever when he fell out of the car. We wish him a speedy recovery.

Kenny Cameron Jr. is staying with the Frizzell family while his father is recovering from a recent illness in the Holy Cross hospital.

The two girls, Patricia and Margaret, are staying with relatives at Madden.

Friday the 13th was very unlucky for Ken Brian when a fire of unknown origin destroyed his barn. A quantity of grain was lost in the blaze.

The Jim Whitlow family have a new DeSoto car.

Mr. and Mrs. M. Latimer and family of Madden were Sunday visitors at the home of Mr. and Mrs. C. Rawleigh.

Mrs. Craig and Ross of Madden visited with Mrs. M. McLeod on Sunday last.

Mr. and Mrs. Henry Samuel and family of Swift Current, Sask., visited for several days last week with Mr. and Mrs. Wendell Goehoe.

Rev. A. Frey left last Wednesday to attend the Annual Missionary Society board meeting at Englewood, Ohio, and he expects to be away for two weeks.

Payne-Freeman Co. have recently delivered new Dodge trucks to W. Reist, Harvey Shantz and Walter Reimer.

Owing to the school concert on Wednesday, May 18th at the Opera Theatre the regular show program has been cancelled.

At the closing session of the Red Cross Society's three day meeting held last week in Toronto, W. A. Austin of Didsbury was elected a member of the executive committee.

A number of interested fans have almost completed the construction of two new tennis courts at the community centre grounds and we understand that as soon as the tapes are put down the courts will be ready for play.

An organization meeting will be held in the Town office on Friday evening, May 20, at 8 p.m. and all those interested in tennis in Didsbury are asked to attend.

Mrs. A. Peterson of Edmonton visited in Didsbury recently with her son-in-law and daughter, Mr. and Mrs. Wendell Goehoe.

### CANADA WANTS BRITISH MACHINERY

Visiting the British Industries Fair early this month, Rt. Hon. C.D. Howe, Minister of Trade and Commerce, addressed industrialists and officials in London and Birmingham, impressing on them Canada's desire to buy more British machinery and industrial equipment.

He pointed out that purchases of machinery and equipment from the United States exceeded in value the total of all Canadian purchases from the United Kingdom. In Canada were able to obtain a larger volume of engineering products from Britain, purchases from the United States could be reduced. This would help to solve Canada's foreign exchange problem, and earning more Canadian dollars Britain would be able to increase her imports from Canada.

Mr. Howe expressed concern over the fact that a large portion of Britain's present exports from Canada consisted of luxury items, such as fine shirtings and worsteds, china, automobiles and other similar products. Such luxury lines are particularly vulnerable to the customer's ability to spend freely.

Canada is among the principal importers of manufactured goods and production equipment will continue to increase. Canada imported machinery and replacement parts valued at \$436 million from the United States in 1948, but only \$28 million worth from the United Kingdom. "Here is a fruitful field in which we could achieve greater activity in your part," Mr. Howe said. "Here is a larger market wide open to British exporters."

### WHEN TO USE 2, 4-D

The time for using 2, 4-D is now rapidly approaching and considerable interest will be attached to the questions of when, where and how to apply it. Several points are involved in deciding on time of application.

Two main factors, according to the Lethbridge Experimental Station, are the growth stage of the weeds and the growth stage of the crop. Generally, the younger the annual weed the more easily it may be killed with 2, 4-D. Dosage must be increased as the weeds get older. Normal applications of 2, 4-D will have no effect on weeds which start growth after the application.

The general recommendation for wheat, oats, barley and rye is to treat after the crop has been out of the ground for three weeks or is five inches tall, but before the shot blade stage is reached.

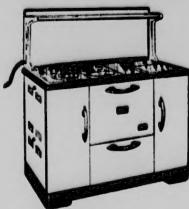

Flax should be treated at three weeks or four inches tall and before bud form. It may be treated earlier if weed growth is well advanced. Flax is more susceptible to 2, 4-D than are the cereals.

Application should be made when evaporation is at a minimum. This would be a windy day, as a poor time and indicates that early morning or evening is better than mid day.

Application of 2, 4-D will be most valuable on fields with a heavy growth of weeds in an early stage of development and when a good grain sprout is in danger of being crowded out.

The Salvation Army Appeal is worthy of your support. Leave donations with the chairman of the local Lions committee, Bill Payne.
